

RESIDENTIAL ERV-HEPA SERIES

Thenow residential ceiling mounted energy recovery ventilator- **HEPA Series** added HEPA filters after G3 or F7 filter which can prevent the fine particles high efficiently.

We have a completely range of energy recovery ventilation systems offering different levels of air flows and filters to adapt to different HVAC systems.

Features

Innovative high efficiency counter flow full heat exchanger

218mm Ultra-thin design, save your space

Bypass is optional

CO₂ , VOC, PM_{2.5} and humidity sensors are optional

Two types available:
G3 filter + HEPA filter and G3 filter + F7 filter + HEPA filter

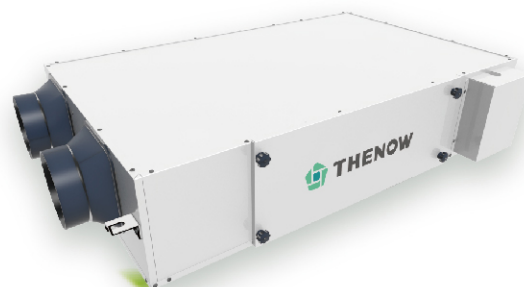

High efficiency DC motor, low noise

Pre heating is optional

Sensible heat recovery unit is optional

Technical Datas
